

21 January 2020

Dear Customer

A46 Renewable Energy Innovation Scheme

What we're doing and why? What are the benefits?

We've identified 6 sites along the A46 between Teddington Hands roundabout and the junction of Back Lane, where we will be installing equipment to capture energy to power future technology. The aim of this technology is to help inform you about your journey times, road conditions and improve safety, which will allow you to plan your journey better or select alternative routes.

When will this work take place?

We will work from **27 January 2020 to 17 April 2020, Monday to Friday, 8pm to 6am**. The work will be delivered in phases, and this first phase will concentrate on the delivery of the main groundworks. We will then return to install the masts and technology within a separate phase. I have included the locations of each of the 6 sites below.

We anticipate the works to take approximately 2.5 weeks per site, with the dates for each of the sites below;

- **Site 1:** 3 February 2020
- **Site 8:** 4 February 2020
- **Site 2:** 19 February 2020
- **Site 3:** 5 March 2020
- **Site 5:** 17 March 2020
- **Site 6:** 2 April 2020

Each site will be constructed using 2-way temporary traffic lights along the A46. Site 1 will require a full closure of Crashmore Lane, and we will provide a fully signed diversion route. Emergency vehicles will have access through the work.

Due to the nature of the works, these dates may be subject to change due to weather conditions or unforeseen circumstances. Where possible, we will notify you if there are any changes to the schedule using black and yellow signs on the roadside.

What does this mean for you

I would also like to apologise in advance for any inconvenience or disruption to those living close to the work. We'll make every effort to carefully manage noise levels and additional lighting to minimise the impact.

Find out more

If you have any questions, or if you would like to know more about our work, please call us on **0300 123 5000** or email info@highwaysengland.co.uk. You can also visit our website at highwaysengland.co.uk/roads/ or write to us at Highways England, National Traffic Operations Centre, 3 Ridgeway, Quinton Business Park, Birmingham, B32 1AF.

Yours faithfully
George Patterson-Payne
